COMMON MISTAKES

1. Errores que más penalizan en reading

- **No copiar el texto.**
- **Responder en 15–30 palabras.**
- **1 idea principal + 1 detalle.**
- **Cambiar 2–4 palabras clave.**
- **Normalmente usar el pasado**, salvo que un ancla obligue a otro tiempo.

Explicación breve:
Aquí el fallo más común no es “no entender”, sino **copiar demasiado**, **pasarse de longitud** o **no parafrasear**.

Incident report #4 Hat confusion in Lanzarote (unificada)

It was a busy Saturday afternoon on December 11, 2023, at the shopping center in Puerto El Carmen, Lanzarote. The sun was shining, and many people were enjoying the day.
Around 1:30 pm, a security guard from the ALE-HOP store noticed two boys leaving the shop in a hurry. He followed them through the shopping center. At the other end of the center, another security guard received a message on his radio about the incident and stopped the two boys.

The security guards took them to a room and waited for the police to arrive. When the police came, the first security guard, Juan C., claimed that the boys had stolen a hat from the shop. The boy wearing the hat insisted he had it on when he entered the store and didn't steal it. He said, "I came in with this hat; I didn't take it." The other boy supported his story, but the police weren't sure whom to believe.
The boys got more agitated and one of them tried to confront the security guard. The police officers then escorted everyone out of the room, through the shop, and towards their police car.
Meanwhile, the assistant manager, Remedios A., approached them and asked if there was a problem. The security guard explained that the boys had taken the hat from the shop. Remedios examined the hat and asked, "Is this the hat in question?" The security guard confirmed, "Yes." Remedios then looked from the boys to the police officers and said, "But these boys were wearing this hat when they entered."

Preguntas oficiales:
1) What details does the text provide about the atmosphere at the shopping center?
2) Why did the security guard start following the two young boys, and what was their behavior that generated suspicion?
3) What caused the tension in the room, and what was the consequence of this tension?
4) What important observation did the assistant manager make about the hat, and how did it impact the situation?

1) Opción B (Q1)

Answer (B): *According to the text, the shopping centre had a busy and relaxed atmosphere. It was a sunny Saturday, and many people were there enjoying themselves.*

Explicación (ES):
Es correcta porque resume lo que dice el texto: tarde de sábado con ambiente “busy”, sol y mucha gente disfrutando.

Cambios clave (paráfrasis):

- “sun was shining” → **sunny**

- “many people were enjoying the day” → **many people… enjoying themselves**
  La idea es cumplir la “regla de oro”: responder con tus palabras y **evitar repetir exactamente** el texto.

2) Opción B (Q2)

Answer (B): *According to what is explained, the guard followed the boys because they exited the store in a hurry, which made their behaviour seem suspicious.*

Explicación (ES):
Es correcta porque el texto dice que el vigilante **los vio salir con prisa** y por eso **los siguió**.

Cambios clave (paráfrasis):

- “leaving the shop in a hurry” → **exited the store in a hurry** (misma idea, distinta forma)
- Se añade “seem suspicious” para explicar la consecuencia (sospecha) sin copiar literal.

3) Opción B (Q3)

Answer (B): *As a result of the disagreement, the atmosphere became tense because no one knew who was telling the truth. The boys got nervous, and the police had to remove everyone from the room.*

Explicación (ES):
Es correcta porque el texto muestra **dos versiones contradictorias** (policía no sabe a quién creer), los chicos se alteran y la policía **saca a todos**.

Cambios clave (paráfrasis):

- “police weren’t sure whom to believe” → **no one knew who was telling the truth**
- “got more agitated” → **got nervous**
- “escorted everyone out” → **remove everyone from the room** (misma acción, verbo distinto)

4) Opción B (Q4)

Answer (B): *Based on the text, Remedios noticed that the hat had been worn before the boys went into the shop, which showed that it had not been taken from there.*

Explicación (ES):
Es correcta porque Remedios afirma que **ya llevaban la gorra puesta al entrar**, y eso desmonta (o al menos debilita) la acusación de robo.

Cambios clave (paráfrasis):

- “were wearing this hat when they entered” → **had been worn before… went into the shop**
- “entered” → **went into** (sinónimo recomendado en tus listas)

READING — *MURDER MYSTERY*

Once, when I was teaching English to children in Cambridge, I died while eating my dinner.

The children were eleven to fourteen years old and there were about one hundred and twenty of them in the large hall of a boarding school. We were all eating ice cream when I made strange noises and fell forward onto my plate.

This was not some unusual way of teaching the children about crime, but a murder mystery game. It was a bit like a play in the theatre, but the whole school was involved. All of the teachers were either victims or suspects and all of the children were detectives trying to find out who the murderer was. The children knew the situation was serious as many teachers were “dying”, so they were all very excited.

Lying next to my ice cream, I loved being a “victim”. However, I had to remember not to smile as the teachers dragged me across the floor to get rid of my dead body so the students knew I was really “dead”. This was just the start of my murder mystery career!

Soon after that, one of my friends bought a murder mystery game and invited me and several other friends to a dinner party. We all had to dress up as different characters. The story was that one of our close friends had been murdered and we were all suspects. We had to tell the other characters important information and question people about the information they gave.

Then, at the end of the evening, we tried to work out who had done it. I wasn’t very good at the police investigation part, but I loved playing a part and the excitement of knowing that one of the people in the room was a “murderer”.

Now I run my own company - Murder Mystery Occasions. I organise murder mystery parties in restaurants or historic buildings. Usually I hire a private room so that the “murder” doesn’t upset other guests.

Castles are particularly popular with my guests because they’re so atmospheric, so I use them if they’re available. I write the scripts and employ actors to be some of the key characters. People pay to come along and join in with the fun while having a wonderful dinner.

The murder usually happens somewhere between the starter and the main course and there is always a lot of excitement when the police arrive to take fingerprints and interview key suspects. People tell me that’s the best part.

Then, at the end of the evening, there is a prize for the table that guesses who is the murderer, but everybody who comes along seems to enjoy the drama.

So, you could say I’ve made a good, honest career out of murder.

1) READING — PREGUNTAS Y SU RESPUESTA EXPLICADA

1. What primarily contributed to the students' heightened excitement during the event in Cambridge?

Answer: According to the text, the students became especially excited because they saw several teachers pretending to die, which made the whole situation feel much more serious and realistic.

Explicación de la paráfrasis:
Aquí no copiamos literalmente *"realistic portrayal of multiple teachers 'dying' throughout the game"*, sino que lo convertimos en una respuesta más natural: *"they saw several teachers pretending to die"*.
Además, *"heightened excitement"* pasa a *"became especially excited"*, que es una forma más simple y más B1. La idea clave que debes mantener es: **los alumnos se emocionan por el realismo de ver a varios profesores "muriendo"**.

2. In the narrator's early experience at the dinner-party mystery, what aspect of the game appealed to them the most?

Answer: Based on the text, the narrator most enjoyed playing a character and feeling the suspense of having a possible murderer within the group.

Explicación de la paráfrasis:
La pregunta usa una formulación más compleja: *"immersive role-playing and the suspense of being among potential murderers"*.
La respuesta buena la simplifica a: *"playing a character"* y *"feeling the suspense"*.
También *"among potential murderers"* se transforma en *"within the group"*, que suena más natural y evita copiar. La idea base es: **lo que más le gustó fue interpretar un papel y sentir la tensión de tener al culpable entre ellos**.

3. What does the narrator imply about the logistics of hosting murder mystery events in public places?

Answer: As explained in the text, these events have to be held in private spaces so that other customers are not disturbed.

Explicación de la paráfrasis:
Aquí la clave es no repetir literalmente *"must be kept separate to avoid alarming uninvolved guests"*.
Se puede llevar a una versión más clara y directa: *"have to be held in private spaces so that other customers are not disturbed"*.
"uninvolved guests" se simplifica a *"other customers"* y *"kept separate"* a *"held in private spaces"*. La idea importante es: **se hacen en zonas privadas para no molestar a la gente ajena al evento**.

4. Why does the narrator particularly value historic venues such as castles for their events?

Answer: According to the text, the narrator values castles because their atmosphere makes the mystery more dramatic and immersive.

Explicación de la paráfrasis:
En vez de copiar *"their ambience intensifies the dramatic impact"*, la respuesta lo convierte en algo más sencillo: *"their atmosphere makes the mystery more dramatic and immersive"*. *"historic venues such as castles"* también se reduce a *"castles"*, porque con eso ya basta para responder. La idea central es: **los castillos gustan por el ambiente especial que crean**.

5. What feature of the narrator's events seems to be the audience's favourite element?

Answer: Based on the text, the audience's favourite part is when the fake police arrive, collect evidence, and question the main suspects.

Explicación de la paráfrasis:
La opción habla de *"the arrival of the 'police,' who gather evidence and interrogate suspects"*.
La respuesta correcta lo expresa de forma más natural y más simple: *"when the fake police arrive, collect evidence, and question the main suspects"*.
Aquí cambias *"interrogate"* por *"question"*, que es más B1, y *"gather evidence"* por *"collect evidence"*, que mantiene el mismo significado. La idea clave es: **la parte favorita del público es la llegada de la policía y la investigación**.
